Flow of Quality above Clothing and Electronics

Dear Institutions,

Reference Letter

I write to recommend this Kwabeemo Akande (Akande) admission into your College/Institution for the graduate course.

The letter is written affirming my knowledge about Kwabeemo Akande as far as my knowledge has come from your respected school.

While it is very hard to say, and I have not been involved in his education over the years just as he has played a great role in my business, I am more than convinced that my company shall be one of the ultimate beneficiaries in whatever knowledge he will acquire from the foreign institution.

Further still, I pledge to do my best in every step of the way during his studies in your country. I would like to see him back here because he will be able to use his knowledge to the young entrepreneurs and business of our country and the rest of the world.

I therefore recommend him highly for admission into your prestigious organization for further studies.

I await my prompt cooperation.

Thank you

Yours faithfully
